# THE HISTORY OF OUR SCHOOL

With over 140 years of existence, National College „Spiru Haret” Tulcea is the oldest school in Dobrogea, having its headquarters in a monumental building which is part of the Unesco patrimony. Our vision is tradition and performance, building pathways to both academic and social and emotional success for our students through providing them opportunities to learn and grow in a positive school culture.

Our school was founded in 1883 and it went through a lot of changes during these many years, but our principles remained the same: tradition and performance.

One thing that makes our school unique is the fact that we have a school museum, located exactly where the documents for founding the school have been signed.

We have a digitalised classroom which has been named “Smart Lab” in our school, implemented by a national school digitalisation programme. For the benefit of the students, there have been bought a lot of programable robots and tablets for each one of them and in order to explore creativity we have 3D pens. To facilitate the learning environment, the classroom has a VR set of glasses for every student, multiple subjects can be interpreted, in 3D, for the better understanding of the subject.

National College of  
“Spiru Haret” hosts a lot  
of International projects.  
Besides Erasmus+, our  
school has E-Twinning,  
EU Voices Club and Dare  
to ask the right questions  
(Jean Monnet project )  
and EPAS.

**DARE TO ASK  
THE RIGHT  
QUESTIONS  
D.A.R.Q**

Un proiect CNSH de tip Jean Monnet,
