Birds aren't real

[IF IT FLIES, IT SPIES.](#)

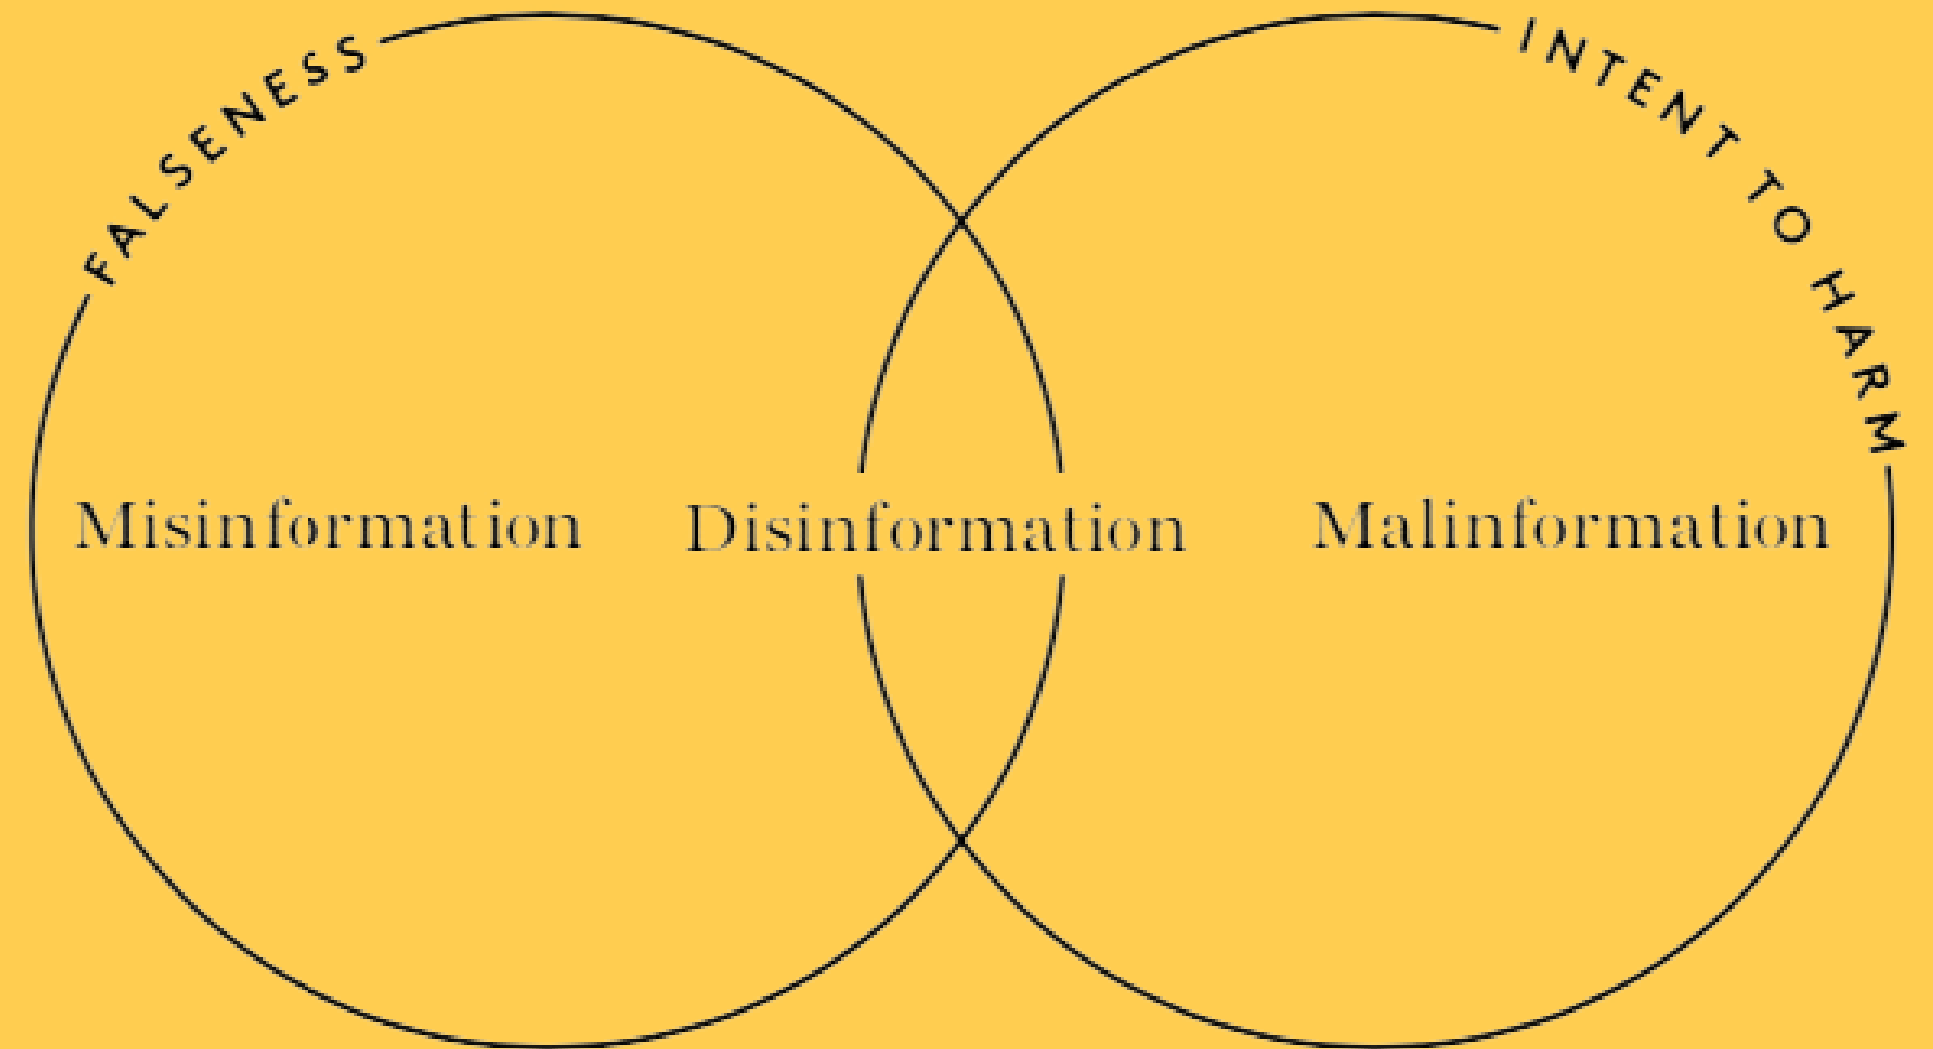

This slogan promotes [Birds Aren't Real](#), a satirical conspiracy group claiming the U.S. government wiped out all birds and replaced them with lookalike drones for surveillance purposes. If that sounds preposterous, it's because it is. Proponents of Birds Aren't Real know the conspiracy is a joke but continue to spread its gospel and build on its lore.

Informational chaos/disorder

3 main types of information disorder

- **Misinformation** is information that is false, but the person who is disseminating it believes that it is true.
- **Disinformation** is information that is false and the person who is disseminating it knows it is false. It is a deliberate, intentional lie.
- **Mal-information**; information that is based on reality, but used to inflict harm on a person, organisation or country.
